

## Our environmental commitment

Nestled in the heart of the Caravelle Peninsula Nature Reserve, French Coco is more committed than ever to initiatives aimed at protecting the environment. That's why we are implementing various actions to reduce our environmental impact while still offering high-quality services and amenities.

- Outdoor solar lighting and LED interior lighting
- Hot water production using solar energy
- Card contactor in suites to reduce electricity consumption

- Raising awareness about the frequency of changing sheets and towels
- Reasonable watering and maintenance of green spaces without pesticides and use of alternative methods to phytosanitary products to combat weeds and insects.

- Elimination of single use products by replacing plastics and disposable packaging with sustainable alternatives.
- Recycling of all types of waste including bio-waste which is recycled in our composter.

- Partnerships with local players to favor short circuits : we work mainly with producers, farmers, breeders and fishermen in Martinique.
- Promotion in our boutique and in the heart of the hotel of works of art and products from our region and coming directly from local producers, artists and artisans

In order to realize our commitment and engage in a process of continuous improvement, we are in the process of obtaining the Green Key label.

The Green Key label distinguishes tourist accommodation and restaurants engaged in a voluntary, efficient and dynamic environmental approach. The label is awarded annually by an independent jury made up of tourism and environmental experts and professionals.

## Our advice for reducing your carbon footprint

During your stay, you can also act in favor of the environment. To reduce the carbon footprint of your stay, we encourage you to adopt simple eco-gestures.

- Set the air conditioning to a temperature of 26°C.
- Favor the use of a fan over air conditioning.
- Turn off the air conditioning when you leave your suite or when the bay window is open.
- Unplug your unused electronic devices.
- Turn off unnecessary lights.

- Limit changing towels and sheets by using the bamboo board provided for this purpose.

- Take part in the waste sorting using the bins provided in the hotel.
- Bring your used batteries to the concierge, our teams will collect them and send them to specialized processing sites.
